

LED RACE CLOCK

BUILT FOR TRACK & FIELD, CROSS COUNTRY AND ROAD RACE TIMING

192 x 64 P5 SMD display, readable from across the venue

Designed by timers, for timers

RACE TIME EVERYONE CAN SEE, START TO FINISH

The Finished Results LED Race Clock is a plug-and-play timing display built for track & field, cross country and road races. Built-in wifi and Ethernet connect it directly to your timing software. The powder-coated aluminum enclosure and weather-resistant design keep it running rain or shine. Set up on the included speaker stand in minutes, or hang it from the eye hooks on a finish truss.

OUTDOOR BRIGHTNESS

192 x 64 px of P5 SMD LED across a 39 inch face, readable from the far side of the track.

WEATHER RESISTANT

Powder-coated aluminum enclosure with ventilation, designed for all-weather outdoor use.

WIFI AND ETHERNET

A weatherproof RJ45 on the case, plus a built-in wifi connection.

QUICK SETUP

Mounts on the included speaker stand or hangs from the eye hooks on a finish truss. Integrated carry handles on the case.

UNIVERSAL POWER

Supports 110/220V. Runs from a standard outlet at any venue, domestic or international, or straight off a generator.

DOUBLE SIDED OPTION

Single or double sided configurations for maximum visibility at the finish line.

Mounts on the included speaker stand, or hangs from the eye hooks

Twist-lock power and weatherproof Ethernet on the case

Matching rear LED face on double sided clocks
